

DEPARTMENT OF ENVIRONMENTAL CONSERVATION

AIR QUALITY MINOR PERMIT

Permit No. AQ0489MSS04
Revises Permit No. AQ0489MSS01

Date: Preliminary – July 6, 2009

The Alaska Department of Environmental Conservation (Department), under the authority of AS 46.14 and 18 AAC 50, issues Air Quality Control Minor Permit No. AQ0489MSS04 to the Permittee listed below.

Permittee: ConocoPhillips Alaska, Inc.

Owner: Same as Permittee

Stationary Source: Alpine Central Processing Facility

Project: Revise Condition for pilot valve excursions

Location: Northing 7805.5 km, Easting 578.0, UTM Zone 5
Section 5, Township 11N, Range 5 E, and
Section 32, Township 12N, Range 5E (CD1)
Section 2, Township 11N, Range 4E (CD2) Umiat Meridian

Physical Address: 700 G Street, P.O. Box 100360, Anchorage, AK 99510-0360

Source Contact: Brad Thomas
(907) 265-6136

Billing Contact: Brad Thomas
(907) 265-6136

This project is classified under 18 AAC 50.508(6). The permit satisfies the obligation of the Permittee to obtain a minor permit under 18 AAC 50. This Permittee is authorized to operate under the terms and conditions of this permit, and as described in the original permit application, except as otherwise specified in this permit. The Permittee may operate under this minor permit upon issuance.

Manager, Air Permits Program

Table of Contents

Section 1. Permit Administration.....	3
Section 2. Minor Permit No. AQ0489MSS03 Revisions	4
Section 3. Terms to Make Permit Enforceable	5
Section 4. Permit Documentation	6

Section 1. Permit Administration

1. Permit No AQ0489MSS01 remains in effect except as revised in Minor Permit No. AQ0489MSS04.

Section 2. Minor Permit No. AQ0489MSS03 Revisions

2. Condition 11 of Minor permit No. AQ0489MSS01 dated February 17, 2001 is rescinded and replaced with the following (no change to footnote):

11. Except during transient operations of startup and shutdown of EU ID(s) GT1, GT2, or E1, turbine intake temperatures less than 0°F, and periods when GT1 or GT2 operate in lead (isochronous²) mode due to CF-G-70001 (E1) being out of service, the Permittee shall operate GT1 and GT2 out of low emissions mode for no more than 48 hours in any consecutive 12-month period.

Section 3. *Terms to Make Permit Enforceable*

3. The Permittee must comply with each permit term and condition. Noncompliance with a permit term or condition constitutes a violation of AS 46.14, 18 AAC 50, and, except for those terms or conditions designated in the permit as not federally enforceable, the Clean Air Act, and is grounds for
 - 3.1 an enforcement action; or
 - 3.2 permit termination, revocation and reissuance, or modification in accordance with AS 46.14.280.
4. It is not a defense in an enforcement action to claim that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with a permit term or condition.
5. Each permit term and condition is independent of the permit as a whole and remains valid regardless of a challenge to any other part of the permit.
6. The permit may be modified, reopened, revoked and reissued, or terminated for cause. A request by the Permittee for modification, revocation and reissuance, or termination or a notification of planned changes or anticipated noncompliance does not stay any permit condition.
7. The permit does not convey any property rights of any sort, nor any exclusive privilege.

Section 4. *Permit Documentation*

December 12, 2008 Minor permit application to revise or rescind Title 1 Permit Conditions.
